

1. Identification

| | | |
|--------------------------------------|---|----------------|
| Product Identifier | Gorilla - Mold and Mildew Stain Remover | |
| Other means of identification | PCS-1280 | |
| Product code | | |
| Recommended use | Stain remover. | |
| Recommended restrictions | Professional use only. Use as directed | |
| Manufacturer information | | |
| Company name | Professional Cleaning Supply | |
| Address | | |
| Tulsa | 7925 E 40 th St. Suite A Tulsa, OK 74145 | |
| Phone | (918) 250-9000 | |
| Oklahoma City | 4301 SW 21 st St. Oklahoma City, OK 73108 | |
| Phone | (405) 681-1822 | |
| Emergency phone number | PERS 24-hour Emergency | (800) 633-8253 |

2. Hazard(s) Identification

| | | |
|------------------------------|--------------------------------------|---------------------------|
| Physical hazards | Oxidizing Liquids | Category 3 |
| Health hazards | Serious eye damage Skin corrosion | Category 1 Category 2A |
| Environmental hazards | Not classified. | |
| OSHA defined hazards | None | |
| Label elements | | |

| | |
|--------------------------------|--|
| Signal word | DANGER |
| Hazard statement | Causes severe skin burns and eye damage. May be corrosive to metals |
| Precautionary statement | |
| Prevention | Wash hands and exposed skin thoroughly after handling. Do not breathe dust or mists. Wear protective gloves/protective clothing/eye protection/face protection. |
| Response | IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER/doctor/medical professional. Specific treatment (see section 4 on the Safety Data Sheet). IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| Storage | Store locked up. Secure away from highly combustible materials. Keep containers closed during storage. Avoid prolonged storage in strong sunlight. |

SAFETY DATA SHEET

Disposal Dispose of contents/containers in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC) None.

Supplemental information None.

3. Composition/information on ingredients

| Mixture Component(s) | | | |
|----------------------------|-------------|---------------------|---------|
| Chemical name | CAS number | Purpose | % |
| Water | 7732-18-5 | Solvent | 80-100% |
| Sodium Hypochlorite | 7681-52-9 | Bleaching Agent | 1-5% |
| Amphoteric Surfactant | Proprietary | Surfactant | 1-5% |
| C9-11 Alcohols Ethoxylated | 68439-46-3 | Emulsifying Agent | 1-5% |
| Pentasodium Triphosphate | 7758-29-4 | Chelating Agent | 1-5% |
| Sodium hydroxide | 1310-73-2 | pH Adjuster | 0-1% |
| Fragrance | Proprietary | Fragrance Component | 0-0.1% |
| Tetrasodium Pyrophosphate | 231-767-1 | Buffering Agent | 0-0.1% |
| Sodium Trimetaphosphate | 7785-84-4 | pH Adjuster | 0-0.1% |

4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

Eye contact Rinse with water for at least 15 minutes. Remove contact lenses if present and easy to do so. Immediately call a physician or transport to hospital.

Ingestion Rinse mouth. Get medical attention immediately. Do not induce vomiting.

Most important symptoms/effects, acute and delayed Can cause serious eye damage. Can cause burning sensation in affected areas. Shortness of breath, respiratory tract irritation or damage. Sodium hydroxide is extremely destructive to tissues of the mucous membranes and upper respiratory tract, eyes, and skin.

Indication of immediate medical attention and special treatment needed Provide general support measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse. Use with extreme caution.

5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO₂).

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed. The product contains a dilute fraction of hypochlorite bleach which could accelerate combustion under certain conditions

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protecting clothing must be worn in case of fire.

Fire-fighting equipment/instructions Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted aside from the diluent fraction of hypochlorite bleach described above.

SAFETY DATA SHEET

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of vapors or mists. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

This product is miscible in water.

Large spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Small spills: Wipe up with absorbent material (e.g. cloth, absorbent wipes). Clean surface thoroughly with detergent and water to remove residual contamination.

Never return spills to original container for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions

Avoid discharge into surface drainage paths and other areas not consistent with package labeling. **Do not use with strong acids**

7. Handling and storage

Precautions for safe handling

Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store in original tightly closed container. Store away from incompatible materials (see section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

US OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

| Components | Type | Value |
|------------------|------|---------------------|
| Sodium hydroxide | PEL | 2 mg/m ³ |

US ACGIH Threshold Limit Values

| Components | Type | Value |
|------------------|------|---------------------|
| Sodium hydroxide | STEL | 2 mg/m ³ |

Biological limit values

No information.

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels to an acceptable level. It is recommended that users of this product perform a risk assessment to determine the appropriate personal protective equipment.

Individual protection measures, such as personal protective equipment

Eye/face protection

Avoid contact with eyes. Wear safety glasses with side shields (or goggles).

Skin protection

SAFETY DATA SHEET

| | |
|---------------------------------------|---|
| Hand protection | The use of gloves impervious to the specific material handled is advised to prevent skin contact. Users should check with manufacturers to confirm the breakthrough performance of their products. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. Suggested protective materials: Nitrile and PVC rubber. |
| Other | Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended. |
| Respiratory protection | In case of insufficient ventilation, wear suitable respiratory equipment. |
| Thermal hazards | Wear appropriate thermal protective clothing, when necessary. |
| General hygiene considerations | When using do not smoke or use chewing tobacco. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace. |

9. Physical and chemical properties

| | |
|--|-------------------------|
| Appearance | |
| Physical State | Clear to cloudy liquid. |
| Color | Light amber. |
| Odor | Chlorine |
| Odor threshold | Not available. |
| pH | 11-12 |
| Melting/freezing point | 20°F(-7°C) |
| Initial boiling point and boiling range | <230°F(<110°C) |
| Flash point | Not available. |
| Evaporation rate | Not available. |
| Flammability | Not available. |
| Flammability Limits | |
| Upper | Not available. |
| Lower | Not available. |
| Vapor pressure | Not available |
| Vapor density | Not available. |
| Specific gravity (water=1) | 1.09 |
| Solubility in water | Soluble. |
| Partition coefficient (n-octanol/water) | Not relevant. |
| Auto-ignition temperature | Not available. |
| Decomposition temperature | Not available. |
| Viscosity | Not available. |

10. Stability and reactivity

| | |
|---|--|
| Reactivity | Reacts violently with strong acids. This product may react with oxidizing agents. |
| Chemical stability | Material is stable under normal conditions. Store in a cool dark place. |
| Possibility of hazardous reactions | Reacts violently with strong acids. This product may react with oxidizing agents. Hazardous polymerization does not occur. |
| Conditions to avoid | Avoid storage in elevated temperatures. Keep away from heat, sparks, and open flame. Do not mix with other chemicals. |
| Incompatible materials | Acids, oxidizing agents, bases, alkalis (organic) |

SAFETY DATA SHEET

Hazardous decomposition products Chlorine, hydrogen chloride. In case of fire see section 5.

11. Toxicological information

Information on likely routes of exposure

- Ingestion** Do not ingest. Causes digestive tract burns.
- Inhalation** Prolonged inhalation may be harmful. May cause irritation to the respiratory system.
- Skin contact** Can cause severe skin burns.
- Eye contact** Can cause serious eye damage.

Symptoms related to the physical, chemical and toxicological characteristics Burning sensation, coughing, wheezing, and shortness of breath. Sodium hydroxide is extremely destructive to mucous membranes, eyes, and skin.

Acute toxicity Not classified.

| Product Gorilla - Mold and Mildew Stain Remover (CAS mixture) | | |
|--|-------------------|--------------------------|
| Exposure Classification | Route and Species | LD50 |
| Acute | Oral, rat | >5,000 mg/kg (estimated) |
| Acute | Dermal -Rat | >6,320 mg/kg (estimated) |
| *Estimates for product may be based on additional component data not shown | | |

- Skin corrosion/irritation** Can cause severe skin burns.
- Serious eye damage/ irritation** Can cause serious eye damage.
- Respiratory sensitization** Not considered a respiratory sensitizer.
- Skin sensitization** Not considered a skin sensitizer.
- Germ cell mutagenicity** No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
- Carcinogenicity** Not considered a carcinogen.
- OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)** Not Listed.
- Reproductive toxicity** No data available.
- Specific target organ toxicity – single exposure** No data available.
- Specific target organ toxicity – repeated exposure** No data available.
- Aspiration hazard** No data available.

12. Ecological information

| Ecotoxicity | | |
|--|------------------------------|---|
| Product Gorilla - Mold and Mildew Stain Remover (CAS mixture) | | |
| Aquatic Receptor | Species | Test Results |
| Fish | Primiphales (fathead minnow) | LC ₅₀ = 10.5 mg/L estimated |
| Crustacea | Daphnia Magna (Water f flea) | EC ₅₀ = >5.0 mg/L estimated |
| Un-specified algal | Nittocra Spinipes | EC ₅₀ = >48.0 mg/L estimated |
| *Estimates for product may be based on additional component data not shown | | |

- Persistence and degradability** No data available.
- Bio-accumulative potential** Accumulation in aquatic organisms is expected.
- Partition coefficient n-octanol/water (log K_{ow})** Not available.
- Mobility in soil** No data available. Chemicals of these classes are highly water soluble and will partition readily to water and weakly to particles in low-clay soil matrices. They are expected to exhibit moderate to high mobility in saturated and semi-saturated soils

Other adverse effects Very toxic to aquatic life with long lasting effects. No other adverse environmental effects known (*i.e. ozone depleting substance, tropospheric ozone precursor, greenhouse gas emission, endocrine disruptor or other deleterious environmental effect*)

13. Disposal considerations

Disposal instructions Collect and reclaim, or dispose, of un-used product in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with applicable local/regional and national solid waste regulations. As packaged, this product is not believed to warrant application of an EPA characteristic waste code (40 CFR Part 261)

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues/unused product Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner. (see: Disposal instructions).

Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may contain product residue, follow label warnings even after container is emptied.

14. Transport information

USDOT

| | |
|---|--|
| UN number | UN1760 |
| UN proper shipping name | Corrosive Liquids, n.o.s. (Contains: Sodium Hypochlorite) |
| Transport hazard class(es) | |
| Class | 8 |
| Subsidiary risk | - |
| Packaging group | III |
| Marine pollutant | No |
| Special precautions for user | Read safety instructions, SDS, and emergency procedures before handling. |
| Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code | Not intended to be transported in bulk. |
| DOT Label/Placard | |

15. Regulatory information

US Federal regulations

| | |
|--|-------------|
| SARA 302 Extremely hazardous substance | Not listed. |
| SARA 304 Emergency release notification | Not listed. |
| SARA 311/312 Hazard Categories | |
| Immediate Hazard - Yes | |
| Delayed Hazard - No | |

SAFETY DATA SHEET

Fire Hazard – No

Reactivity Hazard – No

SARA 313 (TRI reporting)

Not listed.

California Proposition 65

California Safe Drinking Water and Toxic Enforcement Act of 1986

This product is not known to contain any chemicals currently listed as carcinogens or reproductive toxins under California Proposition 65 at levels which would be subject to threshold determination and Safe Harbor notification (1/2019)
