## 2. Hazard(s) Identification

Physical hazards Not classified.

Health hazards Acute toxicity, oral Category 5

Serious eye damage Category 1
Skin irritant Category 2

Environmental hazards Not classified.

OSHA defined hazards Not listed.

**Label elements** 

Signal word Danger

**Hazard statement** May be harmful if swallowed.

Causes serious eye damage. Causes skin irritation.

**Precautionary statement** 

**Prevention** Wear eye protection/face protection. Wash hands and exposed skin thoroughly after

handling. Wear protective gloves.

**Response** Call a POISON CENTER/doctor/medical professional if you feel unwell. IF IN EYES: Rinse

cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor/medical professional. IF ON SKIN: Wash with plenty of water for at least 15 minutes. Specific treatment (see

section 4 on the Safety Data Sheet). If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

### 4. First-aid measures

**Inhalation** Move to fresh air. Call a physician if symptoms develop or persist.

**Skin contact** Remove contaminated clothing immediately and wash skin with soap and water. In case of

eczema or other skin disorders: Seek medical attention and take along these instructions.

**Eye contact** Rinse with water for at least 15 minutes. Remove contact lenses, if present and easy to do.

Get medical attention. Eye wash stations should be located in work area.

**Ingestion** Rinse mouth. Get medical attention if symptoms occur. Do not induce vomiting.

Dermatitis. Rash. May cause an allergic skin reaction.

Most important

symptoms/effects, acute and

delayed

Indication of immediate medical attention and special treatment needed

Provide general support measures and treat symptomatically. Keep victim under

observation. Symptoms may be delayed.

General information Ensure that medical personnel are aware of the material(s) involved, and take precautions

to protect themselves. Wash contaminated clothing before reuse.

### 5. Fire-fighting measures

Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO<sub>2</sub>)

Unsuitable extinguishing None known.

and precautions for

firefighters

Self-contained breathing apparatus and full protecting clothing must be worn in case of

fire.

Fire-fighting

Move containers from fire area if you can do so without risk.

equipment/instructions

**Specific methods**Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards** No unusual fire or explosion hazards noted.

### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Wear appropriate protective equipment and clothing during clean-up. Wear eye/face

protection.

Methods and materials for containment and cleaning up

Caution – spillages may be slippery.

Large spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas.

Small spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original container for re-use. For waste disposal, see section 13 of the

SDS.

**Environmental precautions** Do not release into the environment (see section 12). Avoid discharge into areas not

consistent with package labeling.

# 7. Handling and storage

Precautions for safe handling Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate

personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage,

including any incompatibilities

Store in original tightly closed container. Do not store in extreme conditions.

### 8. Exposure controls/personal protection

### **Occupational exposure limits**

Appropriate engineering

controls

Emergency eye wash stations and showers should be readily accessible. Provide natural or

mechanical ventilation.

Individual protection measures, such as personal protective equipment

**Eye/face protection** Avoid contact with eyes. Wear safety glasses with side shields (or goggles).

Material Name: Olefin Eraser Page **3** of **7** 

Skin protection

**Hand protection** Wear appropriate chemical resistant gloves.

OtherWear long sleeve shirts with pants.Respiratory protectionRespiratory protection not required.

**Thermal hazards** Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

When using do not smoke or use chewing tobacco. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Contaminated work clothing should not be allowed out of the workplace.

### 11. Toxicological information

Information on likely routes of exposure

**Ingestion** Corrosive to mucous membranes, will damage tissue if there is prolonged contact.

**Inhalation** Expected to be a low inhalation hazard.

**Skin contact** Repeated and/or prolonged skin contact causes irritation and/or burns.

**Eye contact** Causes severe eye damage. May cause severe corneal injury.

Symptoms related to the physical, chemical and toxicological characteristics

Dermatitis. Rash. May cause an allergic skin reaction.

**Acute toxicity** May be harmful if swallowed.

Persistence and Nonylphenyl ethoxylate: not considered readily biodegradable, but doesn't mean this

**degradability** material isn't biodegradable under certain environmental conditions.

Bioaccumulative potential No data available.

Mobility in soil Not available.

Other adverse effects The pH of this product may cause it to be toxic to aquatic and terrestrial organisms.

# 13. Disposal considerations

**Disposal instructions**Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose

of contents/container in accordance with local/regional/national/international regulations.

Do not release to the environment.

**Local disposal regulations** Dispose in accordance with all applicable regulations.

Waste from residues/unused

product

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner.

(See: Disposal instructions).

**Contaminated packaging** 

Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may contain product residue, follow label warnings

even after container is emptied.
